Foreword

Learning slang is most certainly one of the most useful and entertaining ways to explore a new language. To some people, the French have only two expletives: Merde (= shit) and Sacrebleu (= My God).

This e-Book will not only teach you how the French curse, but also allows you to discover some useful expressions that we use in France. Do not worry; I won't only focus on offensive words! You will learn tons of expressions and idioms that the French use every day.

Some portions of the e-book might contain some shocking expressions, but I have placed them at the end of the e-book, so if you would feel uncomfortable learning them, there are still tons on 'U rated' expressions. I tried to sort the chapter by priority for you to learn without being bothered by offensive words.

Because understanding and pronouncing the words is everything, I have included the MP3 in 2 versions:

- French only to let you practice the pronunciation.
- A French/English version which can be used as a quiz or to learn without the e-book in front of you.

Your feedback is very important to me, so if you find this e-book helpful to you in any way, please share a review and I'd be glad to give you a little gift as a sign of gratitude.
